31	in you, apoony non-compliant leatures	inianatory conversion clause etc.

- Note 1. Since Resona group applies Japanese domestic standard with regard to capital adequacy regulation, transitional Basel 3 rules are also of the domestic standard.
- Note 2. Under the domestic standard, "Directly issued qualifying common stock or preferred stock mandatorily convertible into common stock capital plus related capital surplus and retained earnings" is included in the Core Capital.

Among the Core Capital, the whole amount of Class C No.1 Preferred Stock and Class F No.1 Preferred Stock is dealt with in our calculation of the capital adequacy ratio as "the planned distribution of income", since we will make the full repayment promptly after the 14th annual shareholder's meeting subject to the approval of shareholders at the said meeting scheduled to be held in June 2015.

Hence, "Amount recognised in regulatory capital" is equal to the amount of regulatory stock holder's equity, which is the amount after deduction of mandatorily convertible preferred stock as the planned distribution of income said above.

- Note 3. The amount of the preferred dividend per share of the Class C No.1 Preferred Stock is the total of (A) and (B) helow
  - (A) Basic Preferred Dividend : 68 yen x [1 Accumulated amount of Special Preferred Dividend / the balance of the Public Fund]

(Accumulated amount of Special Preferred Dividend : the total amount of (B) paid by the date of the Dividend calculation)

(The balance of the Public Fund: 60.0 billion yen)

(B) Special Preferred Dividend : 12 billion yen per share divided by the number of the Class C preferred stock as of the date of the Dividend calculation

(The number of the Class C preferred stock: 12,000,000 shares)

- Note 4. The amount of the preferred dividend per share of the Class F No.1 Preferred Stock is the total of (A) and (B) below.
  - (A) Basic Preferred Dividend : 185 yen x [1 Accumulated amount of Special Preferred Dividend / the balance of the Public Fund]

(Accumulated amount of Special Preferred Dividend : the total amount of (B) paid by the date of the Dividend calculation)

(The balance of the Public Fund : 100.0 billion yen)

(B) Special Preferred Dividend : 20 billion yen per share divided by the number of the Class F preferred stock as of the date of the Dividend calculation

(The number of the Class F preferred stock: 8,000,000 shares)

- Note 5. The amount figures shown in the item 8 of each capital instrument are the amount before considering deduction or caps under Transitional Rules, despite the fact that Eligible Non-cumulative Perpetual Preferred Stock and Eligible Capital Instrument included in Core Capital are deducted gradually during the transition period, and that Cap rules based on the Total Capital are applied to the total of Eligible Capital Instrument subject to the transitional arrangement.
- Note 6. For the capital instruments, of which the dividend / coupon rates have not been disclosed because they are privately issued or borrowed, the dividend / coupon rates are not shown in the item 18.
- Note 7. The principal amount to be repayed for the Class C No.1 Preferred Stock is 60.0 billion yen deducted by the Accumulated amount of Special Preferred Dividend payed for the preferred stock issued under the Act on Emergency Measures for Early Strengthening of Financial Functions ("the Early Strengthening Act") . Since the Accumulated amount of Special Preferred Dividend is 12.0 billion yen as of Mar 31, 2015, the principal amount to be repayed is 48.0 billion yen.

Nonetheless, the whole amount is dealt with in our calculation of the capital adequacy ratio as "the planned distribution of income", since we will make the full repayment promptly after the 14th annual shareholder's meeting subject to the approval of shareholders at the said meeting scheduled to be held in June 2015.

Note 8. The principal amount to be repayed for the Class F No.1 Preferred Stock is 100.0 billion yen deducted by the Accumulated amount of Special Preferred Dividend payed for the preferred stock issued under the Early Strengthening Act. Since the Accumulated amount of Special Preferred Dividend is 20.0 billion yen as of Mar 31, 2015, the principal amount to be repayed is 80.0 billion yen.

Nonetheless, the whole amount is dealt with in our calculation of the capital adequacy ratio as "the planned distribution of income", since we will make the full repayment promptly after the 14th annual shareholder's meeting subject to the approval of shareholders at the said meeting scheduled to be held in June 2015.

Note 9. The whole amount is dealt with in our calculation of the capital adequacy ratio as "the planned distribution of

income", since we will excercise the Optional call immediately following the full repayment of public funds, subject to the approvals of the relevant authorities.
