None

Structure of Capital and Capital Adequacy

CAPITAL

The capital structure of Resona Holdings is as shown below. Please note that the capital ratio is calculated based on the "Notification on Consolidated Capital Adequacy," and is computed on a consolidated basis. The amounts of credit risk-weighted assets are calculated by the Advanced Internal Ratings-Based (hereinafter, A-IRB) approach. In addition, the amount equivalent to operational risk is calculated by The Standardized Approach, and the amount equivalent to market risk by the Standardized approach.

■ Consolidated Capital Adequacy Ratio (Japanese Domestic Standard)

(Millions of yen, %)

- Consolidated Capital Adequacy natio (Sapanese Domestic Standard)		(IVIIIIONS OF YEN, %)
Items	As of March 31, 2022	As of March 31, 2021
Core Capital: instruments and reserves

RISK MANAGEMENT

Credit Risk

■ Qualified Rating Agencies Used in Making Judgments on Risk Weights

In determining the risk weights for portfolios to which the Standardized Approach is applied, the Resona Group makes use of ratings issued by the following four qualified rating agencies (Eligible External Credit Assessment Institutions (ECAI)): Rating and Investment Information, Inc. (R&I), Japan Credit Rating Agency, Ltd. (JCR), Moody's Investors Service, Inc. (Moody's), and S&P Global Ratings (S&P) (excluding securitized products and structured finance)

With respect to exposure, when there are two or more ratings from a qualified rating agency and the corresponding risk weights differ, then the second lowest risk weight is used (note that if the lowest risk weight corresponds to more than one rating, then the lowest risk weight is used).

■ Credit Risk Exposure at Fiscal Year-End: By Region, By Industry, Including Claims Past Due Three Months or More, or Default: By Residual Contractual Maturity

(Millions of yen)

Notes: 1. For exposures to which the A-IRB approach is applied, the balance is presented before the subtraction of reserves, etc., and partial direct write-offs. For exposures to which the F-IRB approach is applied, the balance is presented before the subtraction of reserves, etc., before partial direct write-offs, and after taking into account the effect of credit risk mitigation techniques. In addition, for exposures to which the Standardized Approach is applied, the balance is presented after the subtraction of reserves, etc., after partial direct write-offs, and after taking into account the effect of credit risk mitigation techniques.

^{2. &}quot;Loans and bills discounted, foreign exchange, etc." includes transactions such as cash and due from banks, call loans, monetary claims bought, trading assets, loans and bills discounted, and foreign exchange assets.

^{3. &}quot;Off-balance sheet transactions" includes customers' liabilities for acceptances and guarantees, commitments, and amounts equivalent to credit risk exposure in relation to loans in the trust account (after taking into account of the Credit Conversion Factor (CCF)).

- 4. Exposure related to the central counterparty is included within the category of "Other" types of exposure.
- 5. Credit risk exposures by region are categorized based on the locations of the holding companies, banks, and consolidated subsidiaries.
- 6. Out of the totals above, the credit risk exposure calculated by applying the IRB approach was ¥89,764,963 million, and the credit risk exposure calculated by applying the Standardized Approach (including exposure related to the central counterparty) was ¥797,960 million.

Total	83,943,473	64,693,875	5,853,233	12,378,781	157,342	860,240	/

Notes: 1. For exposures to which the A-IRB approach is applied, the balance is presented before the subtraction of reserves, etc., and partial direct write-offs. For exposures to which the F-IRB approach is applied, the balance is presented before the subtraction of reserves, etc., before partial direct write-offs, and after taking into account the effect of credit risk mitigation techniques. In addition, for exposures to which the Standardized Approach is applied, the balance is presented after the subtraction of reserves, etc., after partial direct write-offs, and after taking into account the effect of credit risk mitigation techniques.

- 2. "Loans and bills discounted, foreign exchange, etc." includes transactions such as cash and due from banks, call loans, monetary claims bought, trading assets, loans and bills discounted, and foreign exchange assets.
- 3. "Off-balance sheet transactions" includes customers' liabilities for acceptances and guarantees, commitments, and amounts equivalent to credit risk exposure in relation to loans in the trust account (after taking into account of the Credit Conversion Factor (CCF)).
- 4. Exposure related to the central counterparty is included within the category of "Other" types of exposure.
- 5. Credit risk exposures by region are categorized based on the locations of the holding companies, banks, and consolidated subsidiaries.
- 6. Out of the totals above, the credit risk exposure calculated by applying the IRB approach was ¥83,166,425 million, and the credit risk exposure calculated by applying the Standardized Approach (including exposure related to the central counterparty) was ¥777,047 million.

Notes: 1. Actual losses refer to total credit-related expenses incurred during the fiscal year. They consist of disposal of non-performing loans, net addition to general loan loss reserves, disposal of non-performing loans in the trust accounts, and gain from recoveries of written-off claims.

Disposal of non-performing loans refers to write-off of loans, net addition to specific loan loss reserves, net addition to special reserves for certain overseas loans, gains or losses from sale of loans, and other net additions to reserves. Also, actual losses by types of exposures do not include net addition to general loan loss reserves for Normal and Watch borrowers and net addition to reserves under the Burden Sharing System charged by the credit guarantee corporation. Figures in parentheses indicate a profit due to the reversal of the reserve.

- Actual losses for equity exposures which apply the PD/LGD approach are not included in credit-related expense, since they are difficult to determine whether the losses are due to credit risks or not.
- 3. Since the losses are limited to exposures guaranteed by the consolidated subsidiaries of Resona Holdings, Inc., actual losses have been omitted from the above exposure classification.
- 4. Credit-related expenses for assets and subsidiaries exempt from IRB calculation are included in actual losses.

Analysis

The credit-related expenses of Resona Holdings for the year ended March 31, 2022 amounted to ¥58.7 billion, ¥1.2 billion higher than in the previous fiscal year.

The principal reason is a ¥20.0 billion year-on-year increase in the net addition to specific loan loss reserves.

(Millions of yen)

Notes: 1. Estimated losses and actual losses on equity exposures for which the PD/LGD approach is applied are not included in credit-related expense, since they are difficult to determine whether the losses are due to credit risks or not.

Losses incurred from the exposures guaranteed by the consolidated subsidiaries of Resona Holdings are not included in estimated losses.
 Since losses are limited to exposures guaranteed by the consolidated subsidiaries of Resona Holdings, estimated losses and actual losses have been omitted from the above exposure classification.

Bank exposures

- Estimated losses after deduction of reserves are represented by deducting reserves (specific loan loss reserves, general loan loss reserves, and partial direct write-offs) of obligors of Special Attention or below, from EL.
 Actual losses refers to total credit-related expenses incurred during the fiscal year. They consist of disposal of non-performing loans, net addition to general loan loss
- reserves, disposal of non-performing loans in the trust accounts, and gains from recoveries of written-off claims.

 Disposal of non-performing loans refers to write-off of loans, net addition to specific loan loss reserves, net addition to special reserves for certain overseas loans, gains or losses from sale of loans, and other net additions to reserves. Also, actual losses by types of exposures do not include net addition to general loan loss reserves for Normal and Watch borrowers and net addition to reserves under the Burden Sharing System charged by the Credit Guarantee Corporation. Figures in parentheses indicate a profit due to the reversal of the reserve.
- Credit-related expenses for assets and subsidiaries exempt from IRB calculation are included in actual losses.

Disposal of non-performing loans refers to write-off of loans, net addition to specific loan loss reserves, net addition to special reserves for certain overseas loans, gains or losses from sale of loans, and other net additions to reserves. Also, actual losses by types of exposures do not include net addition to general loan loss reserves for Normal and Watch borrowers and net addition to reserves under the Burden Sharing System charged by the Credit Guarantee Corporation. Figures in parentheses

indicate a profit due to the reversal of the reserve.

7. Credit-related expenses for assets and subsidiaries exempt from IRB calculation are included in actual losses.

Credit Risk Mitigation Techniques

In calculating the Capital Adequacy Ratio, the Resona Group adopts the "Comprehensive Approach" as credit risks mitigation techniques which is stipulated in the Notification on Consolidated Capital Adequacy. Credit risk mitigation techniques are approaches to reduce the level of credit risk borne by the Resona Group such as the pledging of Eligible Financial Collateral, offsetting loans with deposits held with the Resona Group (On-Balance Sheet Netting), other eligible IRB collateral, guarantees, and the use of credit derivatives.

Please note that for Group banks adopting the Advanced Internal Ratings-Based Approach, the LGD estimates take account of on-balance sheet netting and credit risk mitigation through collateral.

■ Principal Types of Collateral

The principal type of collateral is as follows.

- 1. Cash and deposits
- 2. Listed stocks
- 3. Real estate
- 4. Discounted bills
- 5 Bonds

■ Outline of Procedure on Evaluation and Administration of Collateral

Qualifying revolving retail exposures

Other retail exposures
Standardized Approach

The pledged collateral is properly retained by acquiring the lien on the mortgage and administered under the retention policy so that timely execution of collateral rights is possible. In order to properly acknowledge the coverage status of loans to collateral held, collateral which their value fluctuates according to the financial market are re-evaluated periodically.

■ Outline of Policy and Procedure for On-Balance Sheet Netting of Loans and Deposits

For Group banks adopting the Advanced Internal Ratings-Based Approach, since the LGD estimates take account of on-balance sheet netting, the above-mentioned procedures have not been implemented.

Regarding the adoption of the Foundation Internal Ratings-based

Approach, based on contracts governing bank transactions in which the netting of loans and deposits is permitted, we offset the loan balance with the deposits held with us that are not pledged as collateral and define that amount as credit exposure after credit risk mitigation techniques. When there is a maturity and/or currency mismatch, we will adjust the offset amount according to the practices stipulated in the Notification on Consolidated Capital Adequacy.

■ Outline of Policy and Procedure on Legally Binding Netting Contracts for Derivative and Repo-Style Transactions

In applying bilateral netting contracts for derivatives and repo-style transactions, the Bank reviews its legality prior to engagement of the contract. In the case of International SWAP and Derivative Association (ISDA) Master Agreements, we review and confirm that the article on Close-out Netting is legally binding under the laws of each country.

For transactions that are entered individually, we obtain comments from the legal counsel and conduct compliance checks in order to maintain its legality.

The transaction subject to credit risk mitigation techniques in the Trading and Banking Book is as follows.

Transactions: Derivative Transactions (Interest rate swaps, Currency swaps, Interest rate options, FRA, Forward contracts, Currency options, etc.), Repo-style Transactions

■ Information on Credit and Market Risk Concentration Arising from Credit Risk Mitigation Techniques

There is no credit and market risk concentration as a result of the use of credit risk mitigation techniques.

■ Types of Guarantors and Principal Counterparties in Credit Derivative Transactions and Explanation of Their Credit Standings

Major guarantors are central and local governments, government affiliated institutions, multilateral development banks, and banks and securities companies with lower risk weight compared to the borrower and/or the claims subject to the guarantee.

As of March 31, 2022

There is no outstanding balance of credit derivatives.

Total (after netting / adjusting collateral) (Note 4)	/	131,392

- Notes: 1. The credit equivalent amount is calculated according to the Notification on Consolidated Capital Adequacy as follows.

 - (1) Foreign exchange transactions with the original contractual period within 5 business days are omitted from calculating the credit equivalent amount.

 (2) The credit equivalent amount is calculated under the Current Exposure method by adding gross add-ons (market fluctuation risk taking in consideration of residual contractual maturity), to individual derivative transactions at fair market value (Gross replacement cost is limited to figures larger than zero.).
 - 2. Transactions of Kansai Mirai Financial Group, Inc.
 - 3. The effect of credit risk mitigation of collateralized derivative transactions as of March 31, 2022 is as follows. Collateral is composed entirely of cash. (1) Collateral placed: 2,153 millions of yen
 - (2) Collateral held: 19,439 millions of yen
 - (2)-(1): 17,286 millions of yen

 4. The credit equivalent amount obtained by summing the total gross replacement cost and the total gross add-ons, taking into account credit risk mitigation under close-out netting contracts and credit risk mitigation by pledged collateral.

■ Notional Amount of Credit Derivatives

Securitization Exposures

■ Method of Calculating Credit Risk-Weighted Assets of Securitization Exposures

In calculating the credit risk-weighted asset of securitization exposures, the Resona Group adopts the Internal Ratings-Based Approach, the External Ratings-Based Approach, and the Standardized Approach as stipulated in the Notification on Consolidated Capital Adequacy.

■ Name of Formula Used in Calculating the Amount Corresponding to Market Risk in Securitization Exposure

There were no securitization exposures subject to calculation of market risk equivalent amount.

■ When the Holding Company Group Securitizes Third-Party Assets through Special-Purpose Entities, Indicate the Type of Special-Purpose Entity and whether the Holding Company Group Holds Securitization Exposure from such Transaction

Special-Purpose Entity for Securitization	Type
AB Global Funding Limited, Tokyo Branch	SPC
March Asset Management Co., Ltd.	SPC

With respect to the status, whether the Holding Company Group retains the securitization exposure from such transactions or not, please refer to "Securitization Exposure that Is Subject to Calculation of Credit Risk Assets, When the Holding Company Group Is the Sponsor of Securitization Programs (ABCP, etc.)".

■ Name of the Subsidiaries of the Holding Company Group (Excluding Consolidated Subsidiaries) and Affiliated Companies that Holds Securitization Exposure Conducted by the Holding Company Group (Including Securitization Transactions Conducted through Special-Purpose Entities)

None

■ Accounting Policy with Respect to Securitization Exposures

The Resona Group applies the Accounting Standards for Financial Instruments and the Practical Guidelines for Accounting for Financial Instruments in accounting for securitization transactions. For those securitization transactions in which the Group is an investor, such financial assets are reported at market value. However, for securitization transactions where the Group is the originator, the following accounting treatment is applied.

With respect to future cash inflows, collection costs, credit risk, risk of redemption before maturity, and others that compose the concerned financial assets, transfer and extinction of ownership and the residual financial assets are recognized, provided that the following conditions are all satisfied.

Conditions:

 The contractual rights of the recipient of the financial assets that are transferred are legally secured from the transferring party and the creditors of the transferring party.

(Millions of yen)

- The contractual rights to the benefits of the financial assets that are transferred to the recipient can be received directly or indirectly by normal methods.
- The transferring party does not have any rights or duties to repurchase the financial assets that such party has transferred prior to the date of maturity.

When these conditions for the recognition of extinction are satisfied, the book value of the portion to be extinguished and the difference between the amount to be received or paid is treated as a gain (loss) for the accounting period. The book value of the portion to be extinguished is calculated as a proportion to the book value of the financial assets.

Moreover, when new financial assets or new financial liabilities are created as a result of the extinction of financial assets, such new assets and liabilities are reported at market value.

Please note that in securitization transactions involving the use of a special-purpose company and trust, when the Group as the transferring party holds all or a portion of the securities or other financial instruments issued by the special-purpose company, that portion is treated as a residual portion and is not recognized as an extinction of the financial assets.

■ Qualified Credit Ratings Agency in Determining the Risk Weights for Securitization Exposures

In calculating the credit risk-weighted assets of securitization exposures, the Resona Group applies the External Ratings-Based Approach and adopts the ratings issued by the following Qualified Ratings Agencies (Eligible External Credit Assessment Institutions). These rating agencies are those designated by the Financial Services Agency, as of March 31, 2022.

Ratings from S&P Global Ratings (S&P) with no usage record are omitted, starting from the year ended March 31, 2022.

- Rating and Investment Information, Inc. (R&I)
- Japan Credit Rating Agency, Ltd. (JCR)
- Moody's Investors Service, Inc. (Moody's)

■ When using the Internal Assessment Approach, give a summary of the method

The Resona Group does not use the Internal Assessment Approach

■ When Material Changes Occur in Quantitative Information, Give a Statement of the Content None

■ Securitization Exposure that Is Subject to Calculation of Credit Risk Assets When the Holding Company Group Is the Originator.

Interest Rate Risk

■ IRRBB1: Interest rate risk

In handling interest rate risk in banking book, capital adequacy regulations require banks to have adequate internal control processes in place so as to maintain measured decrease in economic value of equity (Δ EVE) for certain interest rate shock scenarios such as parallel up and down shifts, as shown in the table below, within an appropriate range.

Amounts of decrease in economic value at the Resona Group are within 20% of the value of equity, and the Company recognizes that there are no issues with respect to interest rate risk management.

Moreover, there are no significant changes from the previous year.

Amounts of decrease in net interest income (ΔNII) are measured for certain interest rate shock scenarios caused by parallel up and down shifts.

(Millions of ven)

Item number	ΔΕ	ΔNII		
	As of March 31, 2022	As of March 31, 2021	As of March 31, 2022	As of March 31, 2021
1 Parallel up	67,865	134,255	6,653	5,568
2 Parallel down	50,578	94,869	94,148	110,259
3 Steepener	134,937	136,231	/	/
4 Flattener	/	/	1	/
5 Short rate up	/	/	/	/
6 Short rate down	/	/	1	/
7 Maximum	134,937	136,231	94,148	110,259
	As o	f March 31, 2022	As	of March 31, 2021
8 Capital		2,027,759		2,003,440

Notes: 1. The average repricing maturity assigned to liquid deposits is 1.7 years.

- 2. The longest repricing maturity assigned to liquid deposits is 10 years.
- 3. In calculating ΔEVE, the balance of non-maturity deposits which remain on the books for an extended time (core deposits) is estimated using statistical methods based on historical trends in liquid deposit balances using the Company's internal models.
- 4. Prepayments and early withdrawal of time deposits at Resona Bank, Saitama Resona Bank and Kansai Mirai Bank are estimated, by statistical methods based on past prepayment and withdrawal data for each product type using the Company's internal models. For prepayments of housing loans, Minato Bank makes estimates using statistical methods.
- 5. When aggregating ΔEVE and ΔNII, correlations between currencies are not taken into account, and positive values calculated for each currency are simply combined.
- 6. In the calculation of Δ EVE and Δ NII, fluctuations in credit risk spreads are not considered.

Status of Organizational Systems Related to Remuneration of the Resona Group Relevant Officers and Employees

(1) Scope of "Relevant Officers and Employees"

The scope of "Relevant Officers" and "Relevant Employees" (referred to collectively as "Relevant Officers and Employees") are specified in the "Notification on Remuneration*" and have the following meanings as applied by the Resona Group.

*Notification on Remuneration: Based on the Ordinance for Enforcement of the Banking Act Article 19-2 Paragraph 1 Item 6, this notification covers matters related to remuneration, and specifies persons who may have a material impact on banking operations and the state of bank assets as the head of the Financial Services Agency has issued a separate notice (Financial Services Agency Notification No. 21) specifying such persons.

- 1) Scope of "Relevant Officers"
- "Relevant Officers" are the Company's Directors and Executive Officers. Outside directors are excluded.
- 2) Scope of "Relevant Employees"
- "Relevant Employees" are staff of the Company and officers and employees of principal consolidated subsidiaries who "receive a high level of remuneration" and may have a material impact on the banking operations and/or the assets of the Resona Group.
- (a) Scope of "Principal Consolidated Subsidiaries"
- "Principal consolidated subsidiaries" are those subsidiaries whose total assets exceed 2% of the consolidated total assets of the bank holding company and that have a material impact on Resona Group management. Specifically, these subsidiaries are Resona Bank, Saitama Resona Bank, Kansai Mirai FG, Kansai Mirai Bank, and Minato.
- (b) Scope of "Persons Receiving High Level of Remuneration" "Persons receiving a high level of remuneration" are those persons receiving the base amount of remuneration or higher from the Company and its principal consolidated subsidiaries. (Here and hereinafter, "the Resona Group" refers to the Company (Resona Holdings), which is the holding company for the Resona Group, and its principal consolidated subsidiaries.) In the Resona Group, the criterion for compensation is ¥26 million or higher, which was the total annual compensation received by full-time Directors of the Resona Group in the immediately preceding three fiscal years divided by the number of directors. This base compensation amount is applied in common to all principal consolidated subsidiaries.

Please note that when Severance Payments are made, the amount of the Severance Payment is deducted from remuneration and then, "the amount corresponding to the Severance Payment divided by the number of years of service" is added back. The resulting figure is regarded as that person's remuneration.

(c) Scope of "Persons Having a Material Impact on the Business and/or the Assets of the Resona Group"

"Persons having a material impact on the business and/or assets of the Resona Group" are those persons who may have a substantial impact on the conduct of the Resona Group's operations in the course of executing regular transactions and managing matters under their supervision, and who may have an important impact on the state of assets if losses are reported. Specifically, such persons include staff of the Risk Management Division and Compliance Division; Directors and Corporate Auditors of Resona Bank, Saitama Resona Bank, Kansai Mirai FG, Kansai Mirai Bank, and Minato (excluding Outside Directors and Outside Corporate Auditors); and Executive Officers with the additional titles of Senior Managing Executive Officer, Managing Executive Officer and Executive Officers in charge of either the Market, Risk Management, or Compliance sections as well as the staff of these sections.

Please note that, because of the differences in the compensation decision-making process, Directors, Corporate Auditors, and Executive Officers of principal consolidated subsidiaries who are included in "Relevant Officers" and "Relevant Employees" are regarded as "Relevant Officers, etc." in Disclosure on Remuneration. In addition, "Relevant Employees" after the exclusion of such Directors, Corporate Auditors, and Executive Officers are considered to be "Relevant Staff."

(2) Decision Making on Remuneration of Relevant Officers and Employees

1) Decision Making on Remuneration of Relevant Officers, etc. Resona Holdings, adopted the form of company with a nominating committee, etc. as a corporate governance system and has formed a Compensation Committee as required by law.

The Compensation Committee is responsible for setting policies regarding decision making for remuneration of Directors and Executive Officers, as well as for making decisions on compensation of individual Directors and Executive Officers. The Compensation Committee is, in principle, composed exclusively of Outside Directors, is independent of the business promotion departments, and possesses the authority to set the remuneration policy and the amounts of remuneration of individual Directors and Executive Officers.

Resona Bank, Saitama Resona Bank and Kansai Mirai FG are companies that have adopted the Audit and Supervisory Committee Model. Matters including the total amount of compensation of its Directors (excluding Directors who are Audit and Supervisory Committee Members) and the total amount of compensation of its Directors who are Audit and Supervisory Committee Members are decided by their respective shareholders' meetings. The monthly compensation of individual Directors (excluding Directors who are Audit and Supervisory Committee Members) is decided by the President of the respective companies, who has been delegated this authority by the Board of Directors of the respective companies, based on the total amount of compensation decided at their respective shareholders' meetings. Furthermore, the monthly compensation of individual Directors who are Audit and Supervisory Committee Members is decided through consultation among the Directors who are Audit and Supervisory Committee Members of the respective companies, within the scope of the total amount of compensation decided at their respective shareholders' meetings.

In addition, Kansai Mirai FG's consolidated subsidiaries, Kansai Mirai Bank and Minato, are companies that have adopted the Board of Corporate Auditors Model. Matters including the total amount of compensation of their Directors and the total amount of compensation of their Corporate Auditors are decided by their respective shareholders' meetings. The monthly compensation of individual Directors is decided by the President of the respective banks, who has been delegated this authority by the Board of Directors of the respective banks, based on the total amount of compensation decided at their respective shareholders' meetings. The monthly compensation of individual Corporate Auditors is decided through consultation among the Corporate Auditors of the respective banks, within the scope of the total amount of compensation decided at their respective shareholders' meetings.

The monthly compensation of individual Executive Officers who are elected by the Board of Directors of the respective companies is decided by the President, who has been delegated this authority by the Board of Directors of the respective companies.

2) Decision Making on Remuneration of Relevant Staff
The remuneration of relevant staff is set and paid based on the
salary policies duly established by such as the management committees of the respective Resona Group companies. These policies
are systematically designed and put in writing by the Human

Resources sections of the Resona Group companies, which are independent of the business promotion departments. In addition, when the salary policies of principal consolidated subsidiaries are changed, this is reported to the Company's Human Resources section, which is responsible for verifying the appropriateness of such changes.

Please note that compensation of traders and others in certain market sections in the Company's principal consolidated subsidiaries are determined on an individual basis according to their duties and responsibilities.

(3) Decision Making on Remuneration of the Staff of Risk Management Division and Compliance Division

The compensation of the staff of the Risk Management Division and Compliance Division of Group companies is set based on salary policies, and the specific amounts are decided by the head of the respective Human Resources sections of these companies, which are independent of the business promotion departments, based on assessments of performance.

Moreover, personnel assessment items are used to evaluate the attainment of goals that have been set and approved by the persons responsible for employees in the Risk Management Division and Compliance Division. These goals reflect the contributions of employees within the risk management and compliance frameworks.

(4) Total Amount of Remuneration Paid to Members of the Committees, such as the Compensation Committee, and the Number of Meetings Held

(Ap	Number of Meetings (April 2021 to March 2022)			
Compensation Committee (Resona Holdings, Inc.	7			
Executive Committee (Resona Bank, Ltd.)	2			
Executive Committee (Saitama Resona Bank, Ltd	.) 2			
Executive Committee (Kansai Mirai Financial Group, Inc	2.) 1			
Executive Committee (Kansai Mirai Bank, Ltd)	1			
Executive Committee (Minato Bank, Ltd.)	1			

- Notes: 1. The Compensation Committee has three members, all of whom are Outside Directors, and the total amount of remuneration is not stated in the above chart.
 - 2. The number of meetings of the Executive Committees of Resona Bank, Saitama Resona Bank, Kansai Mirai FG, Kansai Mirai Bank, and Minato is the number of meetings of the Executive Committees held for deciding on compensation of relevant staff. Moreover, regarding the composition of the Executive Committees, since the amount corresponding to the performance of duties related to decisions on compensation cannot be separated from other compensation, the total amount of remuneration is not shown.

2. Evaluation of the Appropriateness of the Design and Operation of the Remuneration System of the Resona Group Relevant Officers and Employees

(1) Remuneration Policy

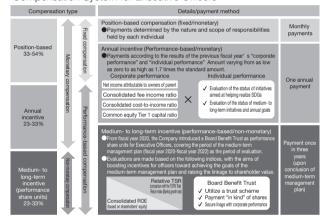

- 1) Remuneration Policy of Relevant Officers, etc.
- (a) Remuneration Policy of the Company's Directors and Executive Officers

The Company's remuneration policy is determined by the Compensation Committee, which is composed exclusively of independent Outside Directors. An overview of the remuneration policy is as follows.

Compensation System for Directors

Compensation type				Details/payment method	
	Position-based	Monetary compensation	Fixed con	Position-based compensation (fixed/monetary) Payments determined by the nature and scope of responsibilities held by each individual	Monthly payments
	Duty-based additional	mpensation	pensation	Duty-based additional compensation (fixed/monetary) Payments made to Outside Directors who serve as a member of the Nominating Committee, Compensation Committee and Audit Committee	Monthly payments

Compensation System for Executive Officers

[Basic Approach]

- •Remuneration for directors and executive officers is determined by the Compensation Committee in objective and transparent procedures.
- Compensation systems for directors are focused on rewarding the performance of their primary duty of providing sound supervision for executive officers, and consists of monetary compensation in the form of a position-based portion and a duty-based additional portion.
- •Compensation for executive officers is designed to maintain and boost their motivation to carry out their business execution duties. In addition, with the aim of strengthening incentives to promote the Group's sustainable growth and enhance shareholder value over the medium- to long-term, Resona Holdings has adopted medium- to long-term incentives (performance share units).

[Policy on Determining Ratio of Individual Compensation Amount for Directors and Executive Officers]

- a. Position-based compensation
- Compensation is made in accordance with the nature and scope of responsibilities for each respective position. The composition of position-based compensation in total executive officer compensation is stated in "Compensation System for Executive Officers."
- b. Duty-based additional compensation
 Duty-based additional compensation is determined by the nature of responsibilities held by each Outside Director who also serves as a member of the Nominating Committee, Compensation Committee and Audit Committee.
- c. Annual incentive and medium- to long-term incentive
 Executive Officers are compensated through an annual incentive
 and medium- to long-term incentive in accordance with performance. The composition of compensation paid to executive officers who take senior positions places a greater emphasis on the
 performance-based portion. The composition of annual incentive
 and medium- to long-term incentive in overall compensation is
 stated in "Compensation System for Executive Officers."
 - (b) Remuneration Policy of Officers of Resona Bank, Saitama Resona Bank

Taking account of the matters decided by the Compensation Committee of the bank holding company, Resona Holdings, the remuneration policy is determined in the Board of Directors. An overview of the remuneration policy is as follows.

Among the Directors, the Representative Director(s), the Directors with executive responsibilities and Executive Officers are stated as "Representative Directors, etc.," and Directors who do not fall under the above categories are stated as "Directors (non-executive)."

The total annual amount of compensation for Directors (Audit and Supervisory Committee Members) is determined at shareholders' meetings, and the amount of compensation for individual Directors is determined through discussions between Directors (Audit and Supervisory Committee Members) within the limits of that amount.

[Basic Approach]

- The total annual amount of compensation for Directors is determined at shareholders' meetings, and within the limits of that amount, Boards of Directors further authorize Representative Directors to determine the details of individual Directors' compensation.
- •Compensation for Directors (non-executive) is focused on rewarding performance of their primary duty of providing the sound supervision of Representative Directors, etc., and to further enhance supervisory functions, consists solely of position-based compensation (basic compensation) in accordance with the nature and scope of responsibilities held by each individual.
- •Compensation for Representative Directors, etc., are designed to maintain and boost their motivation to execute business tasks, with the performance-based portion accounting for a significant proportion of their total compensation. In addition, with the aim of strengthening the incentive toward promoting the Resona Group's sustainable growth and enhancing medium- to long-term shareholder value, this system includes medium- to long-term incentives (performance share units).

(c) Compensation for officers of Kansai Mirai FG and its consolidated subsidiaries, Kansai Mirai Bank, and Minato.

At Kansai Mirai FG, Kansai Mirai Bank, and Minato, compensation for executive officers comprises position-based compensation and performance-based compensation. Furthermore, performance-based compensation comprises cash-based compensation and stock-based compensation. Cash-based compensation will be paid according to the results of the company's performance and individual performance in the previous fiscal year. Stock-based compensation will be paid based on the achievement of the Resona Group's net income.

2) Remuneration Policy of Relevant Staff

For relevant staff, compensation consists of a fixed amount that is set according to duties and responsibilities and an amount that is linked to corporate performance. To reflect such contribution, compensation is decided based on assessments of performance. Please note that, when deciding on remuneration, the officer in charge of Human Resources sections takes account of this compensation system, the status of performance assessments, and actual payments as well as confirms that compensation practices do not place excessive emphasis on performance.

(2) Impact of the Level of Overall Remuneration on Capital (Relevant Officers, etc.)

Regarding the level of compensation paid by the Company, Resona Bank and Saitama Resona Bank, the Compensation Committee of the Company calculates the maximum amount (theoretical value) that may be paid under the compensation system, then compares the outlook for payments to officers with the Medium-term Management Plan, thereby making sure that the level of compensation is financially sound for the Group as a whole and consistent with the future outlook and that such payments will not have any material impact on the adequacy of the Group's capital in the future.

(Relevant Staff)

Regarding compensation to the staff of the Resona Group, the Company considers the management condition of the Company as well as the Company's performance, the portion of compensation that varies with the performance of individuals, etc., and the temporary payment portion; then compares these figures with the Medium-term Management Plan; and confirms that such payment will not have an adverse impact on the adequacy of the Group's capital in the future. In addition, the Company compares the amount of salaries paid for the fiscal year with the level of income for the fiscal year as well as the status of retained earnings to confirm that these payments will not have an adverse impact on the capital ratio.

3. Consistency between the Remuneration System of the Resona Group Relevant Officers and Employees and Risk Management

(1) Method of Taking Account Risks in Deciding Remuneration (Relevant Officers, etc.)

The portion of the compensation of Executive Officers and Representative Directors of the Company, Resona Bank and Saitama Resona Bank that is linked to corporate performance (the portion of cash compensation) is determined with reference to the performance of each company in the previous fiscal year and individual performance. Indicators used in assessing corporate performance are not only net income but also include profitability, soundness, and efficiency. In addition, in assessing individual performance, reference is made to the attainment of objectives that have been set after taking account of various risks that may occur in the divisions where the Executive Officers and Representatives are in charge.

For Directors (non-executive) of the Company, Resona Bank, and Saitama Resona Bank, compensation consists solely of position-based fixed compensation.

The performance-based compensation of Kansai Mirai FG, Kansai Mirai Bank, and Minato will be paid according to each company's performance and individual performance in the previous fiscal year, and corporate performance will comprehensively take into account not only net income but management efficiency and soundness indicators as well.

(Relevant Staff)

When the Resona Group companies design and review their payroll systems, the Human Resources section performs these design and review activities, and final decisions are made by the authorized organizational unit after being reviewed by the Executive Committee. Please note that, when such matters are brought up in meetings of the Executive Committee, the departments in charge of comprehensive risk management verify the appropriateness and suitability of the relevant payroll systems from a risk management perspective.

4. The Link between Remuneration of the Resona Group Relevant Officers and Employees and Corporate Performance

(1) Portion Linked to Corporate Performance in Deciding Remuneration of Relevant Officers and Employees ①Method for Calculating the Portion Linked to Corporate Performance

(Relevant Officers, etc.)

When the Compensation Committee decides on compensation policy for Officers of the Resona Group as a whole, it takes account of the management policies, operating environment, and other relevant matters and then decides on the percentage of the portion of compensation linked to corporate performance for the fiscal year.

(Relevant Staff)

The portion of compensation linked to performance to be paid to the staff is determined based on Group performance according to a predetermined formula.

②Method for Making Adjustments in the Portion Linked to Corporate Performance

(Relevant Officers, etc.)

When performance of Group companies is not satisfactory, the portion of compensation linked to corporate performance for relevant Officers, etc. of the Resona Group may be reduced by lowering the percentage contained in the predetermined formula. (Relevant Staff)

When performance of Group companies is not satisfactory, the portion of compensation linked to corporate performance for the staff of the Resona Group may be reduced by lowering the percentage contained in the predetermined formula.

③Assessment that the Linkage to Corporate Performance Is not Excessively Short-Term Oriented

(Relevant Officers, etc.)

For compensation of officers, etc. of the Company, Resona Bank, and Saitama Resona Bank, the Compensation Committee has established criteria for the payment of compensation and, by assessing the ratio of the portion of compensation linked to corporate performance and the appropriateness of amounts paid, works to verify that compensation practices do not place excessive emphasis on performance.

Regarding officer compensation for Kansai Mirai FG, Kansai Mirai Bank, and Minato, compensation rates have been established so as not to provide excessive incentives. (Relevant Staff)

For compensation of the staff of the Resona Group, taking into account the compensation system, assessments of performance, and actual payments made, Officers in charge of Human Resources sections of each company confirm that compensation practices in their respective companies do not place excessive emphasis on performance.

(4) Monitoring and Restraint on Transactions that Only Reduce Risk Superficially

The middle-office and back-office departments as well as the internal auditing departments monitor transactions at appropriate intervals to ensure that relevant officers and employees have not made arrangements, etc., to reduce risk superficially and that there is no behavior that may be contrary to the intent of the compensation system, which has been designed to be consistent with risk management.

5. Types, Amounts, and the Method of Remuneration Paid to the Resona Group Relevant Officers and Employees

■ Total Amount of Remuneration of Relevant Officers and Employees

(From April 1, 2021 to March 31, 2022)

Item	Number	Total		Total fixed compensation			Total variable compensation		
		remuneration (¥ million)		Basic compensation	Other		Basic compensation	One-time payments	Other
Relevant Officers (excluding Outside Officers)	20	794	462	462	_	331	192	_	139
Relevant Employees	21	797	491	491	_	305	200	_	104

- Notes: 1. The compensation of relevant officers includes the amount of compensation as officers of principal consolidated subsidiaries.

 2. Basic compensation includes retirement benefits paid during the fiscal year (lump-sum retirement benefit payments divided by the number of years of service).

 3. "Other" in the above chart is the Share-based variable portion, and the amount reported as an expense during the fiscal year of performance share units which were

6. Other Matters for Reference Regarding Remuneration System of the Resona Group Relevant Officers and Employees

None.
