- Policy for holding policy-oriented stocks
 - Since the capital enhancement with public funds, Resona Group has reduced the balance of the policy-oriented stocks to lessen the risk of price volatility. Our basic policy is to continue to reduce the balance of policy-oriented stocks.
 - The Group determines whether to hold policy-oriented stocks by evaluating the risks and returns, including feasibility of the development of a trading relationship in a medium- to long-term. The Group may also sell stocks in consideration of the market situations, management and financial strategies, even though the Group considers appropriate for holding from the risk-return perspective.
